Hello Bill, find victims faster.

Facial recognition, image similarity search, and exact image search are some of the most **crucial** tools in your Traffic Jam toolbox.

We have seen victims rescued with these tools, in cases where they **wouldn't** have been identified any other way.

We just made searching images even **faster** in Traffic Jam.

Now you can search by face, similarity, or exact match directly from images. Just click any image to begin your search.

Try It in Traffic Jam Now
